

Petra Neumayer / Roswitha Stark  
**Medizin zum Aufmalen**  
Heilen durch Informationsübertragung und Neue Homöopathie  
Praxiserfahrungen mit den  
Körbler'schen Zeichen

Mankau Verlag, 3<sup>rd</sup> ed. Sept. 2010 (1<sup>st</sup> ed. 2006)  
12,95 Euro (D), 124 pp., ISBN 978-3-938396-04-9

Petra Neumayer / Roswitha Stark  
**Painted Medicine**  
Healing through transference of information and New Homeopathy  
Practical experience with the signs of Körbler

**About the book.**

Since time in memorial Indian people have used signs and symbols to strengthen power and courage. On injured parts of the body of the iceman „Ötzi“ tattooed lines were found and the scanner at the supermarket checkout recognizes a product by the bar code as well. Symbols, simple lines, and signs have been employed in many cultures and since ages in order to transfer information and to activate self-healing powers.

In the middle of the 1980s the Viennese electronics engineer Erich Körbler revived this knowledge. According to it the organism of humans, animals, and plants can be influenced on the levels of body, soul, and mind in a redeeming manner by geometric figures and signs. The signs work like antennas on the skin and change from there the energy system of the body. They are sketched on hurting spots or spots for acupuncture; with their help information can be transferred to water and healing stones as well.

In the meantime many laymen and therapists have tested and developed this healing system, passed on their knowledge and used it in their daily work—partly with astonishing success.

*An extensive guide for everyday life and therapy—with vivid case studies and practical experience reports!*

*With a preface by Layena Bassols Rheinfelder.*

**About the authors.**

Petra Neumayer (born in 1960) works as a medical journalist, writer, and authoress. Numerous books about food supplements, alternative medicine, and naturopathy have been published by her.

Roswitha Stark (born in 1959) is an alternative practitioner for classical homeopathy, sensitive resonance therapy, and colored light therapy, moreover she is a course instructor for information medicine/healing with symbols/dowsing.

**SOLD UNTIL 15<sup>th</sup> of SEPTEMBER 2011: ca. 49.500 copies**

*“Sketching Medicine’ is an estimable contribution for beginners and advanced people as well (...).”*  
Layena Bassols Rheinfelder

*“(...) This guide for everyday life and therapy can be an interesting addition to orthodox medicine ... and has no side-effects.”*  
Schrot & Korn, April 2007

*“(...) This guide imparts this old knowledge in combination with modern research results on the basis of many practical examples and with concrete methods for application.”*  
Die Kunst zu leben, January–March 2007

*“Where is the link between the iceman ‘Ötzi’ and the new understanding of healing? Ötzi has made use of—in contrast to the apparatus-based medicine of today—the principles of energetic medicine. (...) This book takes up again the message about the signs of information transference of healing oscillations. This old knowledge was rediscovered in the 1980s by the Viennese electronics engineer Erich Körbler. (...) In particular for homeopaths who make use of oscillation medicine this book is an immense enlargement.”*  
Prisma, Dec. 2006/Jan. 2007
