About the book.

Our health and our personal well-being have very much to do with our “resonance” in the flow of life. If there are vibrations that make us sick, then there must be those that can activate our *inner healer*. This is what the cosmic laws of polarity and resonance show us.

The frequencies of vibrations of the planets have been found to be an excellent means to bring the *detuning* of body, soul, and spirit back to a harmonious sound. A simple and vibrating way to use these planet tones for our own health is the use of tuning forks with those frequencies.

Healing With The Cosmic Tone provides a simple and comprehensive introduction to the so-called *phonophoresis*, the work with tuning forks which can be applied immediately by laymen and therapists as well. In addition to proposals for various indications, this guide provides for the first time a personal resonance test for the single-handed rod or the pendulum in order to find the right fork for individual concerns.

For this unique access to the world of planet tones, two experts of vibration have come together: Thomas Künne—sound specialist and astrologer—and Roswitha Stark—alternative practitioner for healing with vibrations.

With many immediately usable checklists for the resonance test!
