Andreas Winter  
**The Psycho-Coach 2:  
Healing Without Drugs**  
How chronic diseases  
simply go away!  
With a supporting CD

### **About the book.**

Question: How is it possible that a person is treated for chronic pains, allergies, or insomnia for years and then—after a single intensive discussion—gets lastingly rid of his pain?

Answer: Symptoms are not diseases! Many of these diseases have no physical, but mental causes and can be stopped by insight alone. With this provocative thesis the author Andreas Winter crusades against a worldwide medical fallacy—successfully, as the figures do prove: More than 1,000 persons who have come to know the background of their symptoms were free from pain after a short time.

Winter points out: Psychic and psychosomatic pains are not merely imaginary. They are real. But they cannot be cured with drugs.

Do you want to know what the origin of allergies, colds, fears, and nail-biting is? This book explains in detail how the psyche is to be understood and why health can be so simple.

Follow an exciting depth psychology analysis with which everyone can regain the control over one's body without the slightest difficulty.

### **About the author.**

With his book series “The Psycho-Coach” Andreas Winter wants to let the general public gain from his scientific insights. The qualified educationalist works as a psychological counselor at his institute Powerscout in Iserlohn. His method contains the techniques of depth psychology analysis, elements of neuro-linguistic programming (NLP), and the working with vivid imagination. Andreas Winter is member of the society of German naturalists and physicians (Gesellschaft Deutscher Naturforscher und Ärzte). With his volume “Addiction to Nicotine—the Big Fallacy” he caused he great sensation in Germany.

With the first volume of the Psycho-Coach series “Addiction to Nicotine—the Big Fallacy” he caused a great sensation and has become well-known in Germany. His clients come from all over Europe by now.
